**"THE

Owners say it -  
Sales prove it

Count acceleration and hill-climbing... count riding comfort and reliability... count economy of gas, oil, tires and upkeep...

Owners say it - sales prove it - "Chevrolet is the best performer ever built!"

They say Chevrolet is "the best performer ever built" because it out-accelerates, out-climbs, out-performs all other economy cars - bar none! Because it represents the highest standard of smooth, safe, steady riding and day-in-and-day-out dependability. Because it gives all these results at lower cost.

But riding beats reading! So drive this fast, powerful Chevrolet and prove to yourself what Chevrolet sales prove to the world, that owners are right when they say it's "the best performer ever built."

## 40 YEARS AGO in the NEWS

June 21, 1899

Work on the new school house at  
Middle Intervale was begun on  
Tuesday.

West Bethel—The old meeting  
house, occupied by four families  
having children, will in future be  
known as "Bean's Beehive."

Northwest Bethel—Geo. Chapman  
and H. N. Upton have purchased a  
hoeing machine.—Some timber has  
been hauled to the spot where the  
school house is to be built.

Locke Mills—H. F. Maxim has  
one of the finest small fruit farms  
in town. He has seven and one-  
half acres of raspberries, one  
acre of blackberries, two and one-  
half acres of strawberries, besides  
three-fourths of an acre of cur-  
rants.

## "THEY TELL ME"

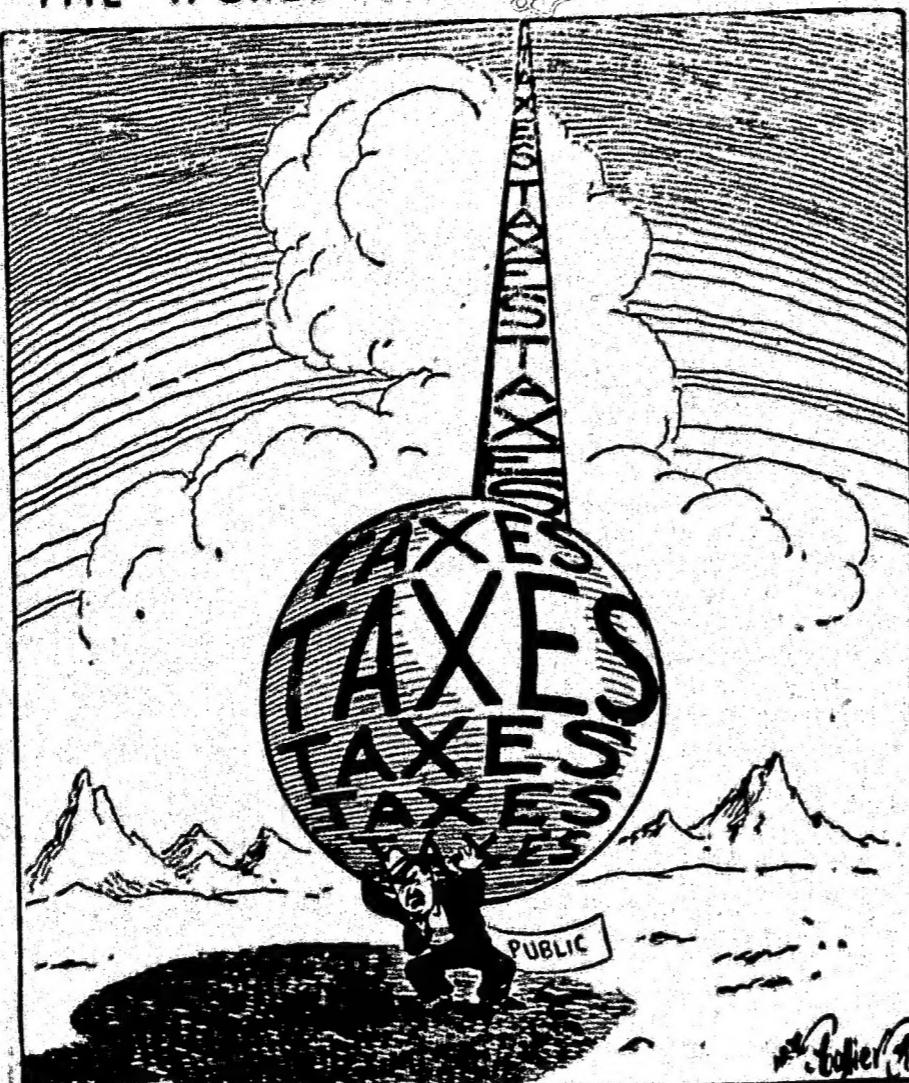

Well sir, that piece I had last  
week about the dump over across  
the river was not so bad I guess  
from what they said, but it didn't  
do any good because the assessors  
and the doctor had the things about  
all settled by the time that paper  
was out. It is kind of interesting  
though to listen to folks, they al-  
ways find something out of joint.  
If they had lost the dump they  
could have talked about that for  
quite a spell, but with that off their  
hands they went right back to kick-  
ing about the sidewalks, or the fire  
department, the roads, WPA or  
the New Deal.

A fellow told me the other day  
just how darn foolish the town is to  
vote a couple of hundred dollars  
every year for the band and as  
much for the Chamber of Com-  
merce to advertise the town with.  
Just graft you know. I bet like as  
not he didn't go to town meeting,  
and if he did he never said any-  
thing. But anyway he said the town  
needs sidewalks, and this money  
they're throwing away should be  
spent for sidewalks. He says four  
hundred dollars a year would go a  
long ways and pretty soon we might  
have as much sidewalk around the  
village as we did 30 years ago. I  
guess by the way some people have  
been getting rid of the sidewalks  
around their places and letting  
them go to grass in others there  
are two sides to the sidewalk ques-  
tion. Anyway there are still some  
people who would rather walk in  
the street than on a sidewalk. You can  
see 'em any day. Besides the Bethel  
Band can be used the year round  
and that is more than you can say  
of the Bethel Sidewalks.

### PICTURES AT BEACH AND POOL

In taking pictures at the beach, remember that sunlit sand and open water are quite bright. Be careful not to overexpose.

**SWIMMING** pools and bathing  
beaches are busy places in the  
summer time—and wherever there  
is activity, there's a field for your  
camera.

Since you find a lot of rapid action  
at these places, the finer camera  
with fast lens and rapid shutter pro-  
vides definite advantages. But if you  
use a trusty inexpensive box camera,  
you'll find plenty to occupy it, too.

Among the things to picture are  
beach games, water sports, diving,  
children at play, sand castles, shadow  
patterns on rippled sand, and—at  
the lake or the seashore—scenic  
views and sunsets.

The chief thing to remember, in  
taking pictures at the beach, is that  
sunlit sand and open water are ex-  
tremely bright. Therefore, expos-  
ure can be shorter than when snap-  
ping pictures inland. With "chrome"  
type film, 1/50-second shutter speed  
at f.16 lens opening is sufficient for  
a beach scene, and 1/50 second at  
f.11 suffices for average shots of in-  
dividuals and small groups. These,  
of course, are "sunny-day" expo-  
sures—on cloudy-bright days, use the

next larger lens opening. With a box  
camera, on a sunny day, use the  
large lens opening for shots of in-  
dividuals and groups, and the small  
lens opening for scenic views.

For shots of fast action, the fine  
camera is best—but you can also get  
good pictures with a box camera, if  
you are alert for momentary pauses  
in the action. These occur in most  
games or sports. Naturally, they  
don't happen during a dive—so with  
a slow camera you'll have to pose  
the diving pictures. Your subject  
can halt on the end of the board, in  
proper position to "take off"—and if  
he does it realistically, the picture  
will be about as interesting as a  
genuine action picture.

If you possess a fine miniature  
camera in the 25-millimeter or No.  
828 size, by all means take a roll or  
two of full-color film along when you  
go to the beach or pool. Bright  
beach umbrellas, vivid costumes,  
blue water, and golden sand make  
these places ideal for full-color pho-  
tography. And today, it's just about  
as easy to use full-color film as to

take pictures in black-and-white.

## OUR TRIP TO AUGUSTA

We were off for Augusta about  
8:30 and arrived there at 11:30.

We went directly to the airport  
to see what time a plane was to  
land there. We were told that one  
from Boston was to land at 12:30.  
That meant we had to hurry and  
eat lunch. We went to the State  
House and got "soda pops" and  
to the park across from the Capitol.  
Hurriedly we ate and rushed back  
to the airport.

We saw this plane make a landing  
and take-off. This was interest-  
ing as many of the class had  
never before seen this spectacle.

The imposing State Capitol Build-  
ing is built of native granite and is  
located on a hill overlooking the  
business section of the city. In the

museum of the State building we  
saw a number of stuffed animals  
such as, moose, deer, bear, raccoon,  
buffalo calf, mink, white seal, and  
many others. We saw birds, live  
fish, minerals, Indian relics and  
guns. We went up into the dome.  
Here we went outside and looked  
out onto the Kennebec and pictur-  
esque countryside. We went into the  
House of Representatives and Senate.  
We saw flags of Revolutionary,  
Civil, Spanish-American and World  
Wars.

We next visited the beautiful  
home of James G. Blaine which is  
now used as the Governor's man-  
sion. We were in the room which  
has been left with exactly the same  
furnishings as when Blaine died,  
and also saw a note from Abraham  
Lincoln in Lincoln's own hand-  
writing.

The State Bureau of Identifica-  
tion was next. There Lieutenant  
Shepard showed and explained finger  
printing, photography of bullets  
and many other instructive things  
in this line of work.

Old Fort Western, on the east  
bank of the Kennebec, which fig-  
ured prominently in the early Indian  
wars, has been restored and is now  
open to the public as a museum.  
Here we saw things as they were  
in 1754. Fort Western is the begin-  
ning of Augusta's history. This was  
very interesting.

We ate lunch at Rome Inn in  
Winthrop and got back to Bethel  
at 7:45 P. M.

## OUR TRIP TO PORTLAND

All the year we have looked for-  
ward to our trip to Portland, and  
you can imagine how excited we  
were when the great day arrived.

There were thirty-three people  
present, including Mr. and Mrs.  
Drummond and also Mr. Flint, the  
driver.

On the way we saw many inter-  
esting sights, one of which was a  
Play Day parade in South Paris.

We arrived in Portland about  
10:45 and the first place we visited  
was the Oakhurst Dairy. There we  
were shown how milk is pasteur-  
ized. We were given as much choc-  
olate milk as we wished. Then we  
were shown all through the dairy.

The second place we went to was  
the National Biscuit Company.  
There we were shown how cookies,  
saltines, and crackers are made and  
put in boxes. The people who showed  
us around were very cordial, and  
at the door each of us was presented  
with a box of cookies.

By this time it was about 12:30  
so we went to W. G. A. N. Broad-  
casting Station in the Columbia  
Hotel where we were allowed to  
watch the broadcast, "Uncle Lem  
and His Mountain Boys." They  
kindly gave us permission to ap-  
plaud after each selection.

We were now all very hungry so  
we drove to Deering's Oaks, a  
beautiful park, and bought drink  
and ate our lunch.

After eating lunch, we went to  
the Deering Ice Cream Company  
where we had as much ice cream  
as we wanted. We were shown  
through the plant and did many in-  
teresting things which included go-  
ing into a room where the tempera-  
ture was 26 below zero.

Following our visit to the Ice  
Cream Co. we went sight-seeing  
and saw many historic places such  
as Longfellow's home, birthplace,  
and his monument, million dollar  
bridge, Portland Post Office, East-  
ern and Western Promenade, Maine

General Hospital, City Hall, and  
Union Station.

The next stop was at the Port-  
land Evening Express Building  
where we again rode in an elevator.  
We saw papers being printed, pack-  
ed and ready for delivery, which  
was a very interesting process.

We next went to the movies, a  
double feature, "Fast and Loose"  
and "The Hardys Ride High." They  
were both excellent pictures.

By that time we were tired and  
hungry so we started for home  
planning to stop somewhere and  
eat our supper. We sang songs and  
told stories on the way home.

We all had a splendid time, and  
I can say for myself that I had the  
best time I've ever had. Although  
I'm glad to be going into the Acad-  
emy, I am sorry to be leaving the  
Grammar School and the teachers  
who have been so kind to us.

## TRUTH about ADVERTISING

By CHARLES B. ROTH

## HOSS TRADIN'

**M**Y FRIEND asked me if I would go with him to buy a horse. I went. We tramped from one dealer's to another. One man asked us \$300 for a horse. The next man had a horse which looked no better, but his price was \$450. Before the afternoon was over we had seen horses ranging in price all the way from \$150 to \$14,000.

Now, the \$14,000 horse was a much better animal than the \$150 horse. No use to deny that. But nowhere along the line did we find a stabilized market.

Had we bought we would have been paying a price which the seller thought his horse was worth. There was no market authority we could consult which would tell my friend whether he was being overcharged or Charles Roth undercharged.

That same evening I went out to buy a small household item—one which is advertised in all the newspapers. I knew what the market price would be: advertising had told me.

With confidence I asked the clerk for what I wanted and put my 25 cents down on the counter. Had he said: "I am sorry, sir, but the price is 50 cents," I would have left and gone somewhere else.

What assurance have I, as a consumer, that someone won't take advantage of me and overcharge me in this bold way?

My only assurance is the advertising which I read in the newspaper. That is my market and my buyer's guide. It tells me the prices I must expect to pay. Let the seller who tries to charge me more beware.

It also tells me what quality I may expect. Let the seller who tries to give me a poorer substitute beware.

So you see that advertising stabilizes prices and enables me, no matter how inexperienced I am in business, to buy with the same expertise and assurance of a professional buyer who spends his life buying for a large concern.

No one objects to paying the established price for something he wants. But all of us hate to be robbed by an unscrupulous man who, taking advantage of our ignorance, "soaks" us good and plenty."

The way to avoid being "soaked" in this complete way is to buy advertised goods from merchants who advertise.

There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today — except, perhaps, horses.

### THE OXFORD COUNTY UNITED PARISH NOTES

**WILLIAM EDMUND CHAPMAN**

William Edmund Chapman passed away suddenly Saturday evening, following a heart attack, at the home of his daughter, Mrs. Grace Chapman Dooley, at Portland.

Mr. Chapman was born in Milan, N. H., July 12, 1858, the son of Milton W. and Mary Yates Chapman. He was one of eight children, none of whom survive. As a young man he resided in Bethel and Norway, but nearly all his adult life was spent in Portland. He was employed as paper hanger until five years ago and was considered one of the best in this trade. For the past seven years, he had made his home with Mrs. Dooley. He was the oldest surviving charter member of Woodfords Commandery, United Order of the Golden Cross.

He married Miss Elizabeth Abbie Winslow of Westbrook, who died many years ago.

Survivors include four daughters: Mrs. Grace Dooley of Portland, Mrs. Dorothy Pine, Mrs. Muriel Sirgheney and Elizabeth Emery all of New York City; four grandchildren: Betty Brown of New York City, who is known as Miss Betty Real, who appeared in Ziegfeld's last Follies; Delores and Paul Sirgheney, New York City, and Kenneth Chapman Cushing of Portland.

Funeral services will be held this (Thursday) afternoon at Greenleaf's funeral home. Interment will be in Riverside Cemetery.

**Michigan 'Wolverines'**

The usual explanation for the nickname "Wolverine," according to the Detroit News, is that this territory in its early days abounded with the fur-bearing animal known as the wolverine or glutton. This animal, now extinct in Michigan, belonged to the weasel family. Another explanation, however, is that Conrad Ten Eyck, a tavernekeeper about the year 1890 made a specialty of wolf steaks. After his guest had eaten a beefsteak or lamb chop, he would be asked, "How did you like your wolf steak?" A young girl who had been told in this manner that she had eaten wolf steak said, "I suppose I am a Wolverine." The name, first applied to those who had eaten at this inn, has continued to all the inhabitants of Michigan.
